

1. As you many know, Edmonton has two airports: Edmonton International Airport and the Edmonton City Centre Airport (also known as the Muni ). There has been some debate about whether the City Centre airport should be shut down or kept open. **Do you think the Edmonton City Centre airport should be shut down and the land used for other purposes, or do you think it should stay open and continue to operate, or are you undecided?**

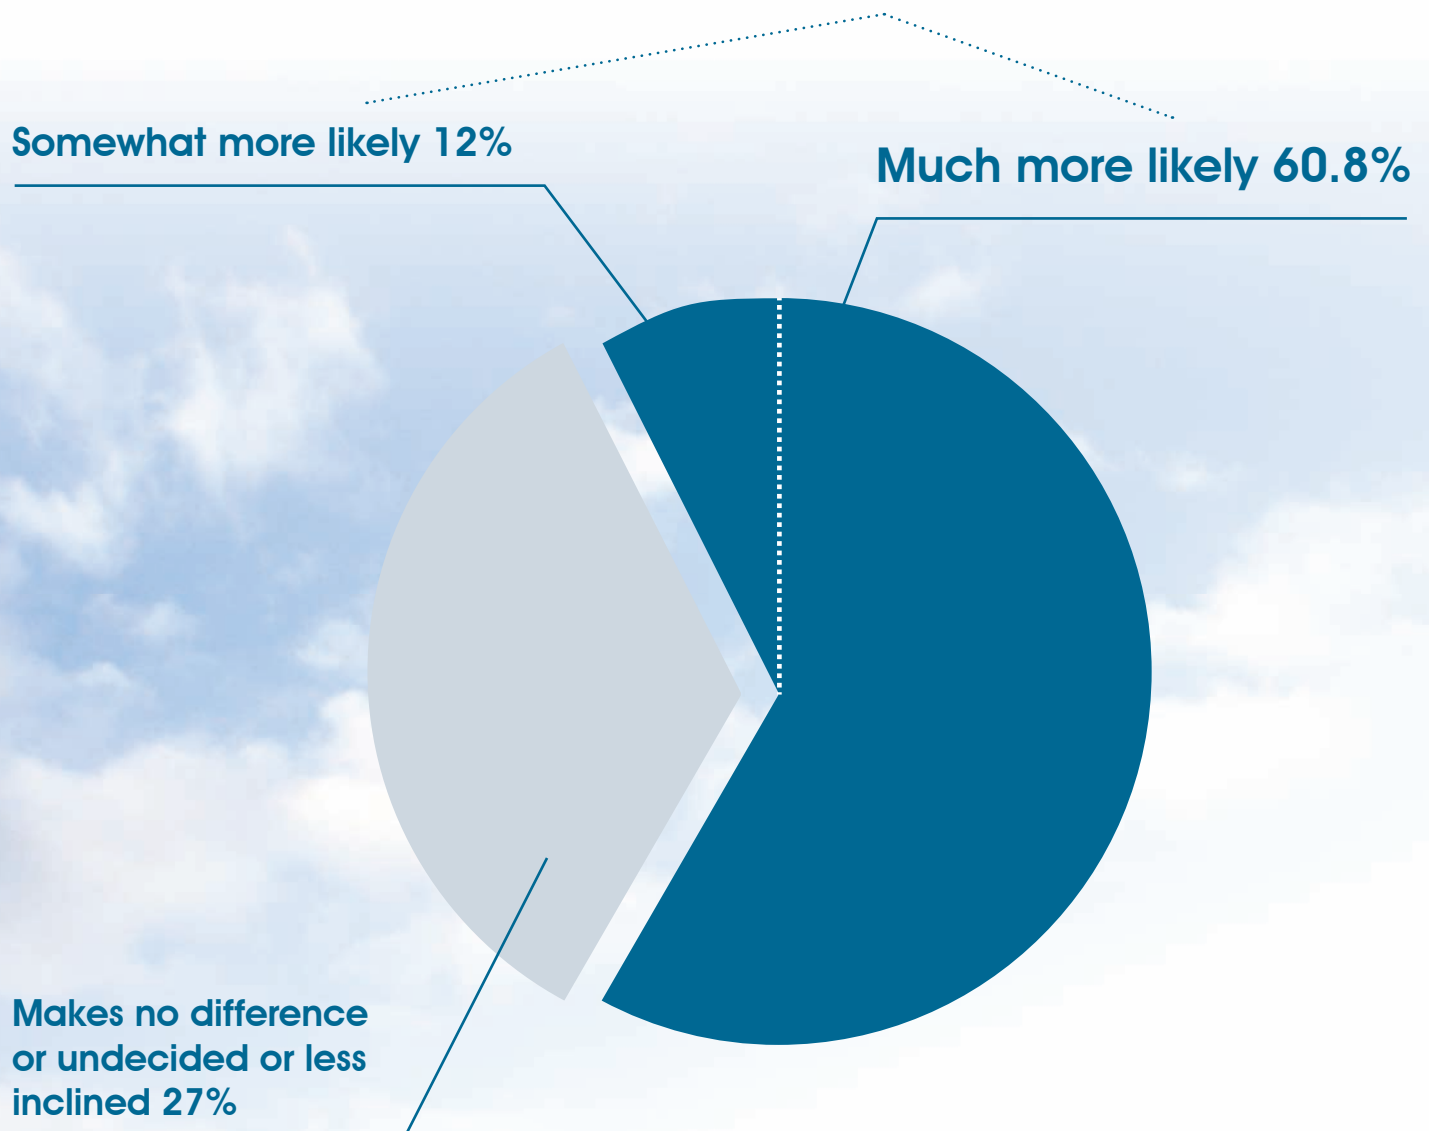

---

\*Environics Research - By telephone between July 14 and July 28, 2010  
The margin of error for a probability sample of 400 people within the population produces results which are statistically reliable to within plus or minus 4.9%, 19 times out of 20 (i.e., at a 95% confidence interval).

- 2.** Every year about 3,000 critically ill or injured Albertans are flown into City Centre Airport by Medevac so they can be quickly treated at hospitals that are minutes away. Northern communities rely on access to Edmonton area hospitals. **Does this make you much more likely to want the City Centre airport to stay open, somewhat more likely to want it to stay open or does it make no difference to how you feel about the City Centre airport?**

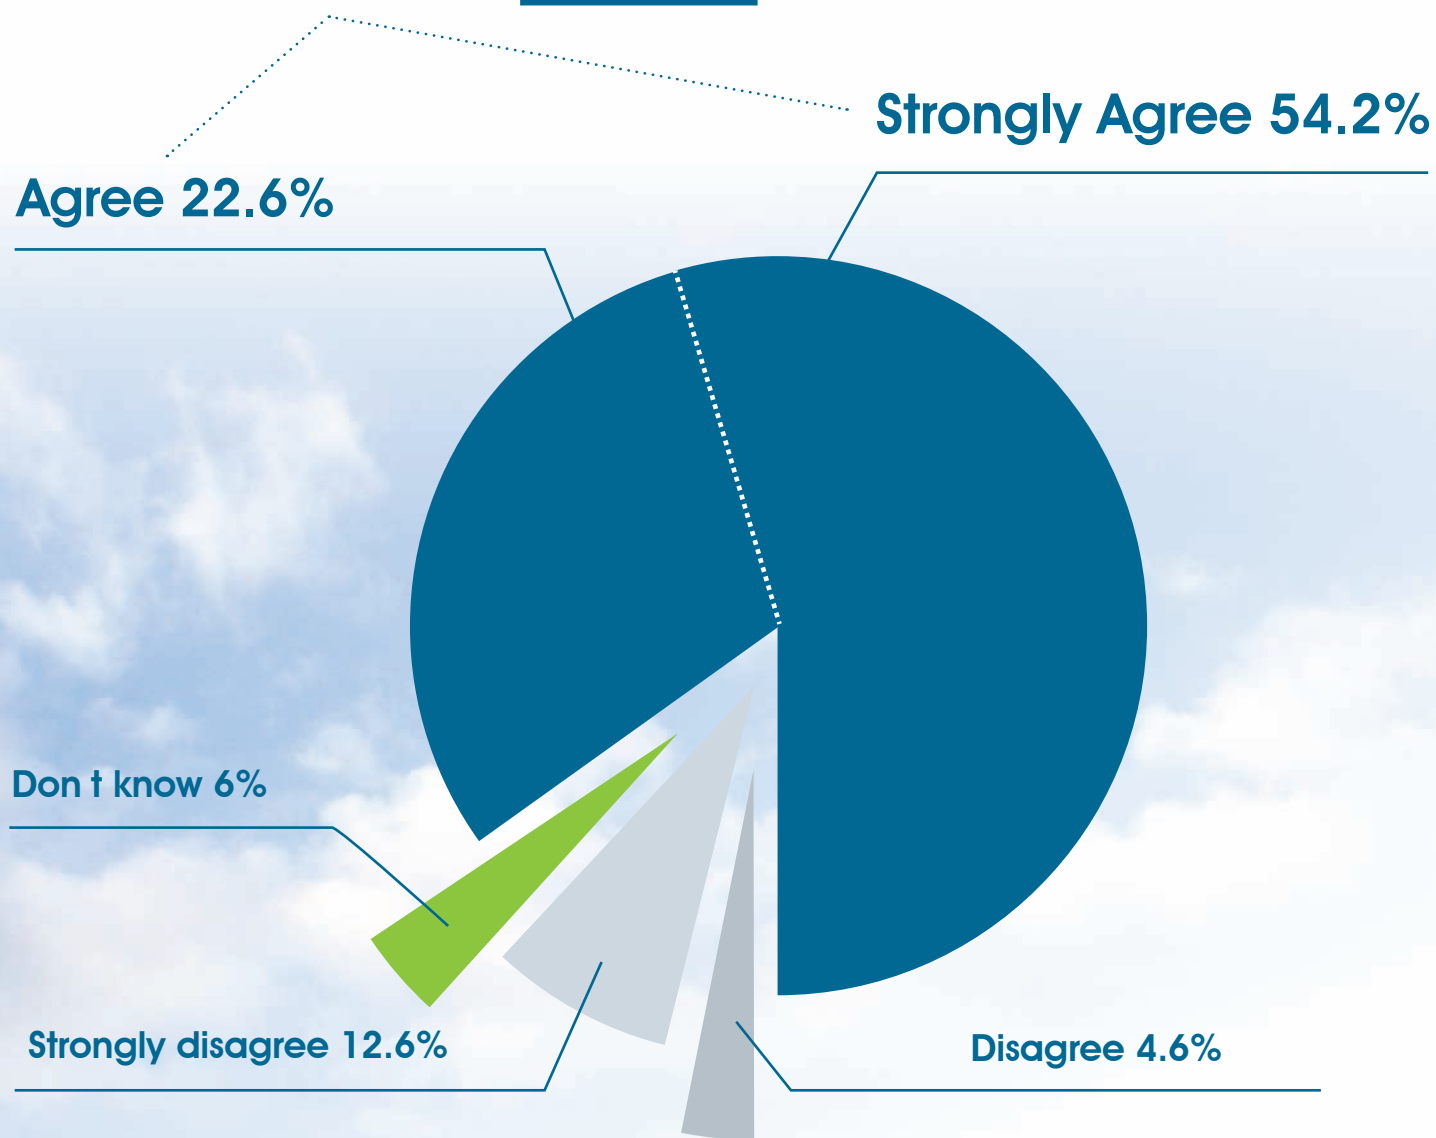

**For a total of 73%**

3. Some people say that the future of the City Centre airport is an important enough issue that the people of Edmonton should be entitled to vote in a plebiscite on whether it stays open or closes. **Do you strongly agree, somewhat agree, somewhat disagree or strongly disagree?**

For a total of **76.8%**
